

## CONTENTS OF VOLUME 29

### *Number 1*

Exergy Analysis of Solar-Assisted Heat Pump Systems . . . . .	1
MURAT TUNÇ, MITHAT UYSAL and AKIF ÖZMEN (Turkey)	
Phosphate Products and the Extent of the Geographic Market . . . . .	17
NOEL D. URI and MICHAEL VITA (USA)	
Enhancing the Heat-Transfer Performances of Conventional Open-Topped Closed-Sided Toasters . . . . .	37
M. NEWBOROUGH and S. D. PROBERT (Great Britain)	
Effects of Molecular Diffusion on Salt in Salt-Gradient Solar Ponds . . . . .	57
L. B. MULLETT and P. T. TSILINGIRIS (Great Britain)	
<b>Technical Note</b>	
Installers' Opinions Concerning the Introduction of Solar-Energy, Domestic Hot-Water Systems in Great Britain . . . . .	73
B. NORTON, A. L. CROMPTON and S. D. PROBERT (Great Britain)	
Book Review . . . . .	77

### *Number 2*

Editorial . . . . .	79
Evolution of Energy-Efficient Food-Preparation Facilities . . . . .	83
M. NEWBOROUGH and S. D. PROBERT (UK)	

*Number 3*

Diesel Engine Waste-Heat Power Cycle . . . . .	179
S. E. ALY (Saudi Arabia)	
Thermal Performances of Heat Exchangers Applicable to Waste-Heat Recovery Systems . . . . .	191
SHOU-SHING HSIEH, CHIHNG-TSUNG LIAUH and WEN-SUN HAN (Taiwan)	
Harnessing Land-Fill Gas from Refuse-Dumping Sites in the UK . . . . .	201
N. GARDNER, B. MANLEY and S. D. PROBERT (UK)	
Thermal-Hydraulic Characteristics of a Heat Exchanger: The Vertical Rectangular Fins Being Aligned Parallel to the Mean Air-Flow in the Duct . . . . .	217
S. NAIK, S. D. PROBERT and C. I. WOOD (UK)	

*Number 4*

Analytical and Experimental Study of a Forced-Convection Type Nocturnal Radiator . . . . .	253
KOUICHI KAMIUTO and NAOKI SASE (Japan)	
Improving Cooking Efficiencies: Barbecuing Reassessed . . . . .	263
C. A. TAIWO, W. J. BATTY and S. D. PROBERT (UK)	
Heat Exchanger Design: Optimal Thickness (under Natural Convective Conditions) of Vertical Rectangular Fins Protruding Upwards from a Horizontal Rectangular Base . . . . .	299
C. W. LEUNG and S. D. PROBERT (UK)	
<b>Technical Note</b>	
Monitoring and Targeting in Buildings: Principles, Programs and Processors . . . . .	307
STEVEN D. FAWKES (UK)
